

## Massachusetts T-1 Toboggan Lift

This "Lift" was at Eastover Resort in Lenox Mass. It was registered as "T-1" A Toboggan Lift - i.e. a farm wagon on wooden tracks pulled up the hill by an old Elevator motor.

Carried Toboggan Passengers back up the hill. In the Picture the Owner of Eastover is the guy on the front with the tan jacket George Bisacca.

Odd thing was -- the Operator most of the time was the Lenox Fire Chief.

The wagon had a hand brake supposedly to stop if it started to slide back.

Tram Board assumed jurisdiction with the idea that at least we could inspect it each year and possibly keep it as safe as possible -better than not looking at it.

Never had a problem with it.

*(believe it is long gone - - -)*
